12 appropriation from a continuing and reliable source of revenue may not be used to fund administrative costs
13 unless expressly authorized in the statute establishing the statutory appropriation. In reviewing and establishing
14 statutory appropriations, the legislature shall consider the following guidelines. A proposed or existing statutory
15 appropriation may not be considered appropriate if:

- 16 (a) the money is from a continuing, reliable, and estimable source;
- 17 (b) the use of the appropriation or the expenditure occurrence is predictable and reliable;
- 18 (c) the authority exists elsewhere;

7

8 **Section 9.** Section 17-2-102, MCA, is amended to read:

9 **"17-2-102. Fund structure.** For the purpose of ensuring strict accountability for all revenue received
10 and spent, there are in the state treasury only the following fund categories and types:

11 (1) the governmental fund category, which includes:

12 (a) the general fund, which accounts for all financial resources except those required to be
13 accounted for in another fund;

14 (b) the special revenue fund type, which accounts for the proceeds of specific revenue sources
15 (other than private purpose trusts or major capital projects) that are legally restricted to expenditure for
16 specified purposes. The financial activities of the special revenue fund type are subdivided, for operational
17 purposes, into the following funds to serve the purpose indicated:

18 (i) The state special revenue fund type consists of money and other proceeds from state and
19 other nonfederal sources deposited in the state treasury that is earmarked for the purposes of defraying
20 particular costs of an agency, program, or function of state government and money and other proceeds from
21 other nonstate or nonfederal sources that is restricted by law or by the terms of an agreement, such as a
22 contract, trust agreement, or donation.

23 (ii) The federal special revenue fund type consists of money deposited in the treasury from federal
24 sources, including trust income, that is used for the operation of state government.

25 (c) the capital projects fund type, which accounts for financial resources to be used for the
26 acquisition or construction of major capital facilities, other than those financed by proprietary funds or trust
27 funds;

28 (d) the debt service fund type, which accounts for the accumulation of resources for and the

1 payment of general long-term debt principal and interest; and

2 (e) the permanent fund type, which accounts for financial resources that are legally restricted to
3 the extent that only earnings, but not principal, may be used;

4 (2) the proprietary fund category, which includes:

5 (a) the enterprise fund type, which accounts for operations:

6 (i) that are financed and operated in a manner similar to private business enterprises whenever
7 the intent of the legislature is that costs (i.e., expenses, including depreciation) of providing goods or services to
8 the general public on a continuing basis are to be financed or recovered primarily through user charges; or

9 (ii) whenever the legislature has decided that periodic determination of revenue earned, expenses
10 incurred, or net income is appropriate for capital maintenance, public policy, management control,
11 accountability, or other purposes; and

12 (b) the internal service fund type, which accounts for the financing of goods or services provided
13 by one department or agency to other departments or agencies of state government or to other governmental
14 entities on a cost-reimbursed basis;

15 (3) the fiduciary fund category, which includes trust and custodial fund types used to account for
16 assets held by state government in a trustee capacity or as an agent for individuals, private organizations, other
17 governmental entities, or other funds. These include the:

18 (a) private purpose trust fund type;

19 (b) investment trust fund type;

20 (c) pension and other employee benefit trust fund type; and

21 (d) custodial fund type.

22 (4) the higher education funds, which include:

23 (a) the current fund, which accounts for money deposited in the state treasury that is used to pay
24 current operating costs relating to instruction, research, public service, and allied support operations and
25 programs conducted within the Montana university system. The financial activities of the current fund are
26 subdivided, for operational purposes, into the four following subfunds to serve the purpose indicated:

27 (i) The unrestricted subfund segregates that portion of the current fund's financial resources that
28 can be expended for general operations and is free of externally imposed restrictions, except those imposed by

1 the legislature.

2 (ii) The restricted subfund segregates that portion of the current fund's financial resources that can
3 be expended for general operations but only for purposes imposed by sources external to the board of regents
4 and the legislature.

5 (iii) The designated subfund segregates that portion of the current fund's financial resources that is
6 associated with general operations but is separately classified in order to accumulate costs that are to be
7 recharged as allocated to other funds or subfunds, identifies financial activities related to special organized
8 activities of educational departments in which the activity is fully supported by supplemental assessments, and
9 identifies special supply and facility fees that are approved for collections beyond normal course fees and their
10 disposition.

11 (iv) The auxiliary subfund segregates that portion of the current fund's financial resources that is
12 devoted to providing essential on-campus services primarily to students, faculty, or staff in which a fee that is
13 directly related to but does not necessarily equal the cost of the service provided is charged to the consumer.

14 (b) the student loan fund, which accounts for money deposited in the state treasury that may be
15 loaned to students, faculty, or staff for purposes related to education, organized research, or public services by
16 the Montana university system;

17 (c) the endowment fund, which accounts for money deposited in the state treasury by the Montana
18 university system in which the principal portion of the amount received is nonexpendable but is available for
19 investment. Expendable earnings on endowment funds are to be transferred to appropriate operating funds
20 pursuant to prevailing administrative requirements.

21 (d) the annuity and life income fund, which accounts for money deposited in the state treasury by
22 the Montana university system under an agreement by which the money is made available on the condition that
23 the receiving unit of the Montana university system binds itself to pay stipulated amounts periodically to the
24 donor or others designated by the donor over a specified period of time;

25 (e) the plant fund, which accounts for those financial resources allocated to or received by the
26 Montana university system for capital outlay purposes or to retire long-term debts associated with construction
27 or acquisition of fixed assets and the net accumulative results of these activities; and

28 (f) the custodial fund, which accounts for money deposited in the state treasury for which the

1 Montana university system acts in the capacity of a custodian or fiscal agent for individual students, faculty,
2 staff, and qualified organizations."
3

4 **Section 10.** Section 17-2-103, MCA, is amended to read:

5 **"17-2-103. Previous definitions of funds -- identification or segregation of money and funds. (1)**

6 It is the intent of the legislature that the definitions in 17-2-102 supersede all previous definitions of public funds
7 that are inconsistent with the definitions found in this part.

8 (2) Any laws enacted or any contracts entered into in pursuance of law that require the
9 segregation of money in the state treasury by means of a separate treasury fund must be interpreted as
10 permitting the segregation of the money by means of a subfund or account within one of the funds created by
11 17-2-102.

12 (3) Each federal grant or other federal money within any subfund or account of one of the funds
13 created by 17-2-102(1) through (3) must be identifiable as a separate accounting entity, reporting center,
14 responsibility center, or revenue identification code, and an account must be made of each grant or other
15 money by income and expenditure for each federal grant year or fiscal year as may be applicable.

16 (4) Unless otherwise specifically provided in the statutes pertaining to the tax, the portion of taxes
17 collected by the state that ~~, pursuant to a statute,~~ are to be allocated or distributed to units of local government,
18 school districts, authorities, or other local governmental entities must be accounted for in a state special
19 revenue fund, established in 17-2-102, as prescribed by the department in accordance with generally accepted
20 accounting principles."
21

22 **Section 11.** Section 17-2-105, MCA, is amended to read:

23 **"17-2-105. Maintenance of fund and account records and interfund loans. (1)** The state treasurer

24 shall record receipts and disbursements for ~~treasury- SEE AMY~~ funds and shall maintain fund records in a
25 manner that reflects the total cash and invested balance of each fund. The state treasurer shall also maintain
26 records of individual funds within the debt service, custodial, capital projects, and trust fund types in a manner
27 that reflects the total cash and invested balance of each fund. When necessary to meet federal or other
28 requirements that money be segregated in the treasury, the state treasurer may establish accounts, funds, or

1 subfunds within any fund type listed in 17-2-102.

2 (2) (a) For the purpose of supplying deficiencies in the general fund, the state treasurer may
3 temporarily borrow from other treasury funds, excluding pension trust funds, providing that the loan is recorded
4 in the state accounting records. Except as provided in subsection (2)(b), the loan does not bear interest. A fund
5 may not be so impaired that all proper demands on the fund cannot be met.

6 (b) If a loan to the general fund is made from a fund that retains its own interest, the department
7 shall repay the loan with interest at a rate established by the state treasurer based on the estimated interest
8 rate the funds would have earned if the funds had not been borrowed."

9

10 **Section 12.** Section 17-2-107, MCA, is amended to read:

11 **"17-2-107. Accurate accounting records and interentity loans.** (1) The department shall record
12 receipts and disbursements for treasury funds and for accounting entities within treasury funds and shall
13 maintain records in a manner that reflects the total cash and invested balance of each fund and each
14 accounting entity. The department shall adopt the necessary procedures to ensure that interdepartmental or
15 intradepartmental transfers of money or loans do not result in inflation of figures reflecting total governmental
16 costs and revenue.

17 (2) (a) Except as provided in 77-1-108 and subject to 17-2-105, when the expenditure of an
18 appropriation from a fund designated in 17-2-102(1) through (3) is necessary and the cash balance in the
19 accounting entity from which the appropriation was made is insufficient, the department may authorize a
20 temporary loan, bearing no interest, of unrestricted money from other accounting entities if there is reasonable
21 evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in
22 the state accounting records. An accounting entity receiving a loan or an accounting entity from which a loan is
23 made may not be so ~~impaired~~ depleted that all proper demands on the accounting entity cannot be met even if
24 the loan is extended.

25 (b) (i) When an expenditure from a fund or subfund designated in 17-2-102(4) is necessary and
26 the cash balance in the fund or subfund from which the expenditure is to be made is insufficient, the
27 commissioner of higher education may authorize a temporary loan, bearing interest as provided in subsection
28 (4) of this section, of money from the agency's other funds or subfunds if there is reasonable evidence that the

1 income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state
2 accounting records. A fund or subfund receiving a loan or from which a loan is made may not be so impaired
3 that all proper demands on the fund or subfund cannot be met even if the loan is extended.

4 (ii) One accounting entity within each fund or subfund designated in 17-2-102(4) must be
5 established for the sole purpose of recording loans between the funds or subfunds. This accounting entity is the
6 only accounting entity within each fund or subfund that may receive a loan or from which a loan may be made.

7 (c) A loan made under subsection (2)(a) or (2)(b) must be repaid within 1 calendar year of the date
8 on which the loan is approved unless it is extended under subsection (3) or by specific legislative authorization.

9 (3) Under unusual circumstances, the director of the department or the board of regents may grant
10 one extension for up to 1 year for a loan made under subsection (2)(a) or (2)(b). The director or board shall
11 prepare a written justification and proposed repayment plan for each loan extension authorized and shall
12 furnish a copy of the written justification and proposed repayment plan to the house appropriations and senate
13 finance and claims committees at the next legislative session.

14 (4) Any loan from the current unrestricted subfund to funds designated in 17-2-102(4)(a)(iv) and
15 (4)(b) through (4)(f) must bear interest at a rate equivalent to the previous fiscal year's average rate of return on
16 the board of investments' short-term investment pool.

17 (5) If for 2 consecutive fiscal yearends a loan or an extension of a loan has been authorized to the
18 same accounting entity as provided in subsection (2) or (3), the department or the commissioner of higher
19 education shall submit to the legislative fiscal analyst by September 1 of the following fiscal year a written report
20 containing an explanation as to why the second loan or extension was made, an analysis of the solvency of the
21 accounting entity or accounting entities within the university fund or subfund, and a plan for repaying the loans.
22 The report must be provided in an electronic format. The department or the commissioner of higher education
23 shall provide a copy of the report to the legislature in accordance with 5-11-210.

24 (6) If for 2 consecutive fiscal yearends an accounting entity in a fund or subfund designated in 17-
25 2-102(4) has a negative cash balance, the commissioner of higher education shall submit to the legislative
26 fiscal analyst by September 1 of the following fiscal year a written report containing an explanation as to why
27 the accounting entity has a negative cash balance, an analysis of the solvency of the accounting entity, and a
28 plan to address any problems concerning the accounting entity's negative cash balance or solvency. The report

1 must be provided in an electronic format. The commissioner of higher education shall provide a copy of the
2 report to the legislature in accordance with 5-11-210.

3 (7) (a) (i) Except as provided in subsection (7)(a)(ii) of this section, an accounting entity in a fund
4 designated in 17-2-102(1) through (3) may not have a negative cash balance at fiscal yearend. Except as
5 provided in subsection (9) of this section, the department may allow a fund type within each agency to carry a
6 negative balance at any point during the fiscal year if the negative cash balance does not exist for more than 7
7 working days.

8 (ii) An accounting entity in a federal special revenue fund described in 17-2-102(1)(b)(ii) may have
9 a negative cash balance at fiscal yearend.

10 (b) (i) Except as provided in subsection (7)(b)(ii) of this section, a unit of the university system shall
11 maintain a positive cash balance in the funds and subfunds designated in 17-2-102(4).

12 (ii) If a fund or subfund ~~inadvertently~~ has a negative cash balance, the department may allow the
13 fund or subfund to carry the negative cash balance for no more than 7 working days. If the negative cash
14 balance exists for more than 7 working days, a transaction may not be processed through the statewide
15 accounting, budgeting, and human resource system for that fund or subfund.

16 (8) Notwithstanding the provisions of subsections (2) through (4), the department may authorize
17 loans to accounting entities in the state special revenue funds with long-term repayment whenever necessary
18 because of the timing of the receipt of agreed-upon reimbursements from private or other governmental entity
19 sources for disbursements made. If possible, the loans must be made from funds other than the general fund.
20 The department may approve the loans if the requesting agency can demonstrate that the total loan balance
21 does not exceed total receivables from private or other governmental entity sources and that receivables have
22 been billed on a timely basis. The loan must be repaid under terms and conditions that may be determined by
23 the department or by specific legislative authorization.

24 (9) Federal special revenue funds described in 17-2-102(1)(b)(ii) may not have a negative cash
25 balance by fund type for more than 7 working days unless the requesting agency certifies to the department
26 that it has and will continue to bill the federal government for the requesting agency's share of costs incurred in
27 the fund or accounting entity on the earliest date allowable under federal regulations applicable to the program.
28 The requesting agency shall recertify its timely billing status to the department for any month during which cash

1 is negative for more than 7 working days. If at any time the requesting agency fails to recertify the timely billing,
2 a transaction may not be processed through the statewide accounting, budgeting, and human resource system
3 for that fund or subfund.

27 (b) Subject to the requirements of this chapter, the budget director and the legislative fiscal analyst
28 shall by agreement:

12 the instructions given for completing the forms.

13 (3) The agency budget request must set forth a balanced financial plan for the agency completing

2 attaining its goals and objectives. An agency that has complied with the requirements provided in Title 2,
3 chapter 12, part 1, is exempt from the provision of this subsection (3)(c).
